

Duchy College in partnership with the Dame Hannah Rogers Trust, deliver accredited land-based courses at the beautiful Seale-Hayne site near Newton Abbot in Devon.

Hannahs at Seale-Hayne is an amazing place for the community. People of all abilities can train, learn, have fun and fulfil their true potential without judgement or limit; a place where disability is incidental.

The courses on offer are designed for learners with moderate learning disabilities, who have an interest in land-based subjects and are willing to learn new practical skills.

The courses also help develop the personal skills needed to become more independent and be prepared for the workplace.

Pathfinder at Seale-Hayne A full-time study programme for those aged 16-24. Monday to Thursday 9.30am-4pm

This course is designed to meet the needs of young people with learning difficulties. The course includes English and maths, horticulture, animal care and green woodwork. As much of the curriculum as possible is met through practical activities and experiential learning to enthuse and engage young people that like to work outdoors.

Greenwood Growers A part-time course for adults with learning difficulties.

Thursdays and Fridays 10am-3.30pm

The course includes horticulture and green woodwork. Students learn about growing plants in a very practical way, create products for sale and take part in developing the Greenwood Garden area. Students get the chance to spend a lot of time outdoors and develop confidence and social skills whilst being part of building a successful enterprise. The course is free to learners who are unemployed and can provide evidence of receiving certain benefits.

TCV Groundbreakers A part-time course for students aged 16-18. Monday to Wednesday 10am-4pm

Groundbreakers is a course delivered in partnership with the Trust for Conservation Volunteers (TCV) and is an 18 week study programme aimed at re-engaging young people aged 16-18 years, who are NEET (not in employment, education or training) by involving them in important volunteer opportunities in significant conservation projects in the region.

They are supported and encouraged to develop key employability skills and attitudes in a practical work environment. Qualifications can be achieved in employability skills, English and maths which are all taught informally and embedded in the practical work.
